"वे जंगलों में आदिवासियों के बीच में रह कर आदिवासियों की सेवा करते हैं। 70 हज़ार से ज्यादा वन टीचर-वन स्कूल 'एकल विद्यालय' चलाते हैं और अमेरिका में भी कुछ लोग हैं जो डोनेशन करते हैं, इस काम के लिए और वे, कहते हैं कि एक कोकॉकोला नही पीनी है, इस महीने एक कोकॉकोला मत पियो और उतना पैसा एकल विद्यालय को दो। अब 70 हज़ार एकल विद्यालयों में आदिवासी बच्चों को पढ़ाने के लिए काम करना शिक्षा में क्रांति लाने के लिए....."

शुभकामनाएं

एकल अभियान का उद्देश्य समाज के अंतिम छोर पर खड़े व्यक्ति तक केवल शिक्षा का प्रकाश पहुँचाना ही नहीं, बल्कि उसे अपने संस्कारों, अपनी जड़ों और अपनी गौरवशाली सांस्कृतिक परंपरा से जोड़ना भी है। जब किसी गाँव में एकल विद्यालय प्रारंभ होता है, तब वह केवल बच्चों के लिए शिक्षा का केंद्र नहीं बनता, बल्कि पूरे गाँव के लिए जागरण, आत्मविश्वास और सामाजिक समरसता का प्रेरणास्थल बन जाता है। वहाँ राष्ट्रीय एकता की भावना प्रबल होती है, स्वाभिमान जागृत होता है और समाज अपने मूल्यों के प्रति अधिक सजग और संगठित बनता है।

एकल अभियान की सबसे बड़ी शक्ति समाज की संगठन शक्ति है। हजारों समर्पित कार्यकर्ता, संरक्षक और समाजबंधु एक सूत्र में बंधकर इस महान कार्य को आगे बढ़ा रहे हैं। जब समाज संगठित होकर किसी श्रेष्ठ उद्देश्य के लिए खड़ा होता है, तब असंभव प्रतीत होने वाले कार्य भी संभव हो जाते हैं, और यही संगठन शक्ति आज एकल अभियान को निरंतर विस्तार और प्रभाव प्रदान कर रही है।

आज के बदलते वैश्विक परिदृश्य में जब सांस्कृतिक चुनौतियाँ और सामाजिक विकृतियाँ अनेक रूपों में सामने आ रही हैं, तब एकल अभियान ग्रामीण संस्कृति को जीवंत बनाए रखने, समाज में संस्कारों की ज्योति प्रज्ज्वलित करने तथा धर्मांतरण जैसी चुनौतियों के प्रति जागरूकता उत्पन्न करने का एक सशक्त माध्यम बनकर उभरा है।

मुझे पूर्ण विश्वास है कि भारत लोक शिक्षा परिषद् के समर्पित कार्यकर्ता, संरक्षक और समाजबंधु इसी भावना और निष्ठा के साथ आगे बढ़ते हुए इस अभियान को नई ऊँचाइयों तक ले जाएंगे।

शुभकामनाओं सहित.....

PROJECT MODULE OF EKAL VIDYALAYA

Concept :

"Ekal Abhiyan" (The One Teacher School Movement) gives primary education to the under privileged children to the mainstream of life through taking education to their doorstep in rural & tribal villages. One Teacher Schools are opened in border, Sensitive and tribal areas.

Basic primary education to children in these remote villages would enable them access to further higher education. Even if some students cannot move further for whatever reasons, the basic education of reading, writing, arithmetic and awareness on hygiene, cleanliness, local sports, rights, moral values etc. would equip them suitably to live a better life. Need for arranging formal education were manifold like infrastructure and trained teachers which were not easy to manage, the former for financial constraints and later for availability of trained teachers from the same areas. Arranging teachers from outside was (and still is) not a feasible option for the teachers not well versed with local language and dialect were not capable of communication with children nor were facilities available for their stay in these remote areas or for commuting from nearby towns.

Focus Areas :

- Basic Primary Education (Language & Arithmetic)
- General Knowledge, Craft & Creativity
- Health, Hygiene, Sanitation, Nutrition & Social Awareness
- Ethics & Values Education
- Women Empowerment
- Instilling Cultural Pride
- Building Character
- Addressing Social Issues
- Fostering Civic Engagement
- Social Awareness
- Civic Education

PROJECT NEED

Need of Ekal Vidyalaya

India is predominantly populated by rural communities. A large portion of such rural population is tribal and located in remote areas, have largely escaped fruits of growth, change and development that should have taken India forward.

Ekal assessed that key to the solution lie in EDUCATION. Basic primary education in remote villages enables them to understand importance of Education in life & also an access to further higher education. Students who cannot move further for some reasons, basic education of reading, writing, arithmetic and awareness on hygiene, cleanliness, fundamental rights as an Indian citizen, local sports, facilities they are entitled in rural areas, subsidies available by government schemes, RTI, moral values etc. would equip them suitably to lead a better life.

Formal education need infrastructure and trained teachers, is not easy to manage for constraints like availability of trained teachers from the same areas. Arranging teachers from outside is not a feasible option as they are not well versed with local language and their dialect, not capable of communication with children nor were facilities available for their stay in these remote areas or for commuting from near-by towns.

This led to evolution of a unique model of one teacher school and hence the name Ekal.
